ACCESSORIES REBEL 1100

**NEW
MODEL**

Do you really need a clutch lever?

The Dual Clutch Transmission made its worldwide debuts for motorbikes in 2010 with the Honda VFR 1200. It has been constantly improved since then. DCT allows the rider to focus on accelerating, turning and braking, rather than gear shifting.

This increases confidence and control for the rider.

The DCT is completely different from the automatic transmission used by most scooters: it is structurally a conventional 6-speed transmission electronically controlled.

rebel 1100

€240.00 € preveriti

HEAD LIGHT COWL

08ESY-MLA-HL

Adopt the power cruiser style with this head light cowl. It will also make your ride more comfortable by reducing the wind pressure to your upper body. The stay is included.

€268.00 €230.00

SHORT FRONT FENDER

08P70-MLA-D00

The Short Front Fender featured the Rebel logo stripe and will add sporty touch to your bike. It matches perfectly with the head light cowl.

€477.00 € preveriti

SCREEN COWL

08ESY-MLA-SC

With its classic style, the Screen Cowl offers the maximum protection to the riders looking for long-distance cruising.

Stays and attachment are included.

DESIGN & PROTECTION

€16.00

CENTER TANK PAD

08P70-MLA-A00

This pad is exclusively designed to fit the tank shape and to protect it from scratches. With its "Rebel" logo and its diamond cut pattern, it matches beautifully the wadding design of the special seats (sold separately / see COMFORT section).

€29.00

SIDE TANK PADS SET

08P71-MLA-A00

This pad is exclusively designed to fit the tank shape and to protect it from scratches. The diamond cut pattern matches perfectly the wadding design of the brown or black special seats (sold separately / see COMFORT section).

€20.00 & €17.00

WHEEL STRIPES

08F70 or 08F71-MLA-A00ZA

Available in Mat Axis Gray Metallic, the wheel stripes add a final touch and some protection to your rims. Each kit can underline one wheel, the front one or the rear one:

- 16" Rear (08F70) ... €17.00
- 18" Front (08F71) ... €20.00

€115.00 €109.00

DIAMOND MAIN SEAT

08R75-MLA-A00ZA or ZB

Thanks to its distinctive pattern and its luxurious leather material, the Diamond Seat will make your Rebel 1100 to stand out. It will also improve significantly your comfort for long riding. 2 colours available:

- Buffalo Brown (ZA)
- Black (ZB)

€113.00 €107.00

DIAMOND MAIN SEAT SPECIAL

08R72-MLA-J00ZA or ZB

Same specifications as the Diamond Main Seat, the Special Seat has an extra 25mm cushion added, that will push slightly forward the rider who prefers to not extend too much the legs. 2 colours available:

- Buffalo Brown (ZA)
- Black (ZB)

€68.00

BROWN PASSENGER SEAT

08R73-MLA-J00ZA

This Passenger Seat will match perfectly the Buffalo Brown Diamond Seats (sold separately).

€132.00 €120.00

RIGHT SADDLE BAG (SMALL)

08L04-K87-A31

Made of a sturdy and lite weight ballistic nylon, this 10 litres capacity saddle bag adds to the tough style of your Rebel. It can be attached/detached in one-touch thanks to its three-point adapter (sold separately). Equipped with a waterproof inner bag and easy to carry, this practical saddlebag is a must-have for everyday use.

€142.00 €130.00

LEFT SADDLE BAG (LARGE)

08L05-K87-A31

Made of a sturdy and lite weight ballistic nylon, this 14 litres capacity saddle bag adds to the tough style of your Rebel. It can be attached/detached in one-touch thanks to its three-point adapter (sold separately). Equipped with a waterproof inner bag and easy to carry, this practical saddlebag is a must-have for everyday use.

COMFORT

€62.00

MAIN SEAT 25MM FORWARD

08R80-MLA-A00ZA

This seat adopts the same design as the standard seat but its extra 25mm cushion helps the rider to adopt a more comfortable position.

€173.00 € preveriti

BACKREST KIT

08ESY-MLA-BR

To offer a smooth ride to your pillion, equip your Rebel 1100 with this backrest kit including a comfortable pad.

€275.00 € preveriti

GRIP HEATERS WITH ATTACHMENT

08ESY-MLA-GH

Extremely slim heated grips with smart heat allocation and 5 different heat levels. The level selected is displayed on the meter. An integrated circuit protects the battery from draining.

€96.00 & €85.00

SADDLE BAG SUPPORT

08L72 or 08L73-MLA-J01

This support is needed to attach a saddle bag into the side of your motorcycle.

Saddle bags are sold separately.

- Right side (08L72) ... €85.00
- Left side (08L73) ... €96.00

€225.00 €200.00

REAR CARRIER

08L70-MLA-J00

The Rear Carrier allows to carry extra luggage and offer grips that improve the passenger comfort.

€77.00

SOLO CARRIER

08L71-MLA-J00

Both practical and good looking, this carrier is a great addition for solo riders. To be mounted instead of the passenger seat.

HONDA TECHNOLOGY

AIR BAG

A tank-mounted air bag – unique in motorcycling – is designed to deliver an extra level of safety, and peace of mind to the rider.

ANTI-LOCK BRAKING SYSTEM

Reduces braking pressure by monitoring the wheel speed, preventing the wheels from locking up.

COMBINED BRAKE SYSTEM

Actuates both front and rear brakes when the rear brake pedal (or lever) is engaged, for a smooth and confident balance of braking control.

DUAL CLUTCH TRANSMISSION

Combines the riding enjoyment of a manual transmission with the convenience of an automatic, delivering enhanced comfort and sporty performance.

EURO 5

Complies with EURO 5 emissions regulations.

HONDA EVOLUTIONAL CATALYSING SYSTEM

Oxygen-sensing system maintains an optimal air/fuel mixture for the most effective catalytic reduction of exhaust emissions.

HONDA IGNITION SECURITY SYSTEM

Only allows the bike to be started by its original encoded keys to effectively protect against theft.

HONDA SELECTABLE TORQUE CONTROL

If the Honda Selectable Torque Control (HSTC) system senses an imminent loss of rear wheel traction it reduces torque to allow the tyre to grip. Multiple levels are selectable according to riding mode or user preference.

HILL START ASSIST

After stopping on an incline an extra squeeze of brake maintains hydraulic pressure to the rear caliper – when it's time to move simply open the throttle.

WHEELIE CONTROL

The IMU measures the pitch angle and, combined with front and rear wheel speed, manages the amount of height the front wheel gathers relative to the level of intervention selected. Level 1 is minimum Wheelie Control, level 2 medium and level 3 maximum. Wheelie Control can also be switched off completely.

Honda has developed and applied many innovative technologies for its motorcycle range, designed to have the greatest possible benefit for you and the world around you.

HONDA SMARTPHONE VOICE CONTROL SYSTEM

Bluetooth connectivity for easy management of navigation, calls, messages and music whilst riding. Available with Android™ devices only.

LED LIGHTS

Brighter and more energy efficient than traditional bulbs, with no time delay and a longer life.

PROGRAMMED FUEL INJECTION

Map-type computerised system maintains strong power and responsive performance in all conditions.

REVERSE GEAR

Getting the Gold Wing into – or out of – wherever you want it is made effortless by the addition of an easy-to-use reverse gear.

SMART KEY

This innovative technology improves both convenience and security. As long as your key is in your pocket or bag, you can release the seat and start the engine with the press of a button.

RIDING MODE SELECT

Each riding mode adjusts parameters of the motorcycle for example: power output; level of engine braking; suspension damping, ABS and HSTC.

RADIAL MOUNT CALIPERS

Offers better alignment to the disc and rigidity. Radial-mount calipers are secured and supported at both ends providing less caliper flex and better braking performance.

USB CHARGING

We've subtly integrated a USB socket into the under-seat storage compartment. No need for an adaptor; simply connect your device's lead, plug it in, and go.

TFT DISPLAY

Full colour TFT screen to control riding modes, along with other bike parameters. Displays key information such as Gear Position indicator and rev counter.

LCD DISPLAY

Sharp and clear information and warning lights presented in a rich and easy to read display.

HONDA DCT DUAL CLUTCH TRANSMISSION

DCT is an automated clutch and shift operation system that retains the direct acceleration feel of a manual transmission with the ease of use of an automatic. DCT allows the rider to focus on accelerating, turning and braking, rather than gear shifting. This increases confidence and control for the rider. DCT technology takes the joy of riding and controlling your machine to the next level.

FREEDOM

Ride without concerning yourself with the clutch lever and shift pedal, for smooth and seamless gear changes.

2 AUTOMATIC MODES

S -Sport- For a more sporty driving style.
D -Drive- For relaxed city and highway driving.

CONTROL

Switch between auto and manual mode to suit any riding environment. Eliminate shift shocks like an expert biker.

1 MANUAL SELECT MODE

MT, with change of gear via left hand.

G SWITCH*

Improves rear wheel traction when off-road.
*Only for Africa Twin & X-ADV

DREAMS REALLY DO COME TRUE

Soichiro Honda said,

“There are qualities which lead to success. Courage, perseverance, the ability to dream and to persevere.”

Honda's philosophy in dreaming of a better world for people catalysed the invention of the ASIMO, HondaJet, NSX and the legendary Africa Twin. Dreams can be powerful, they push you to achieve more, to explore new ideas, new technologies and uncover new ways of solving problems. It takes independent thinking and audacity to pursue dreams. It also takes passion and innovation to never allow the dream to die and to shape them into a reality for the modern-day world.
